National Seminar

FRONTIERS IN CHEMICAL SCIENCES

FCS 2023

1-3 February, 2023

About FCS

The department organizes a national seminar series entitled **Frontiers in Chemical Sciences (FCS)**, every year, for celebrating the latest research and innovations in the area of chemical sciences. FCS provides a platform for scientists, researchers, academicians as well as industrial professionals from India and abroad to present their research findings and innovations. This year, the **FCS-2023**, is scheduled to be held during **1-3 February, 2023**. The conference is expected to bring together researchers working on cutting edge/emerging frontiers, leading to fruitful discussions and collaborations.

We cordially invite you to be a part of the conference, to interact and innovate, and make the conference a celebration of Science.

About the Department

The Department was established in 1968 under the leadership of Prof. S. S. Moosath with a mission to create a world class center for post-graduate education and advanced research in chemical sciences. Over the years, it has trained thousands of students and young researchers to take up academic and industrial position in India and abroad and has a rich alumnus to its credit. Presently the Department offers Integrated B. Sc.-M. Sc., M. Sc. and Ph. D. programs. The department has a faculty strength of 12 and the thrust areas of research include Nanochemistry, Synthetic Organic Chemistry, Advanced Materials and Processing, Corrosion Studies, Polymer Chemistry, Computational Chemistry, Green Chemistry and Supramolecular Chemistry.
